Skoda Enyaq iV 60 Exterior Design

From the front end of the car, it looks amazing with the LED headlights with daytime running lights, and headlight range control. The rear LED lights and the black roof rails add design to the car with door mirrors heated, electrically adjustable, folding, and auto-dimming. As we can see the car has a higher body frame, a robust front with a distinctively shaped bonnet, and a **higher ground clearance (186mm)** renown as a car's SUV character. Under the bonnet, there is a new concept grille that gives a better look but doesn't need electric cars.

Let's talk about the headlight design, unique crystal structure characteristics of Skoda design emphasizes the 3 dimensionalities of the headlights and transform them into a work of art. When we look from the rear and side profile there is the distinct lines and sharp edges which provide a better impression of moving. Impressive things about the full LED rear lights also feature the animation function (coming and leaving home) which is activated when the doors are opened or closed.

Exterior Color Options available are:

- Solid Colour: Energy Blue
- Metallic Colour: Moon White
- Metallic Colour: Arctic Silver
- Metallic Colour: Graphite Grey
- Pearl Effect: Black Magic
- Metallic Colour: Race Blue
- Metallic Colour: Brilliant Silver
- Exclusive Colour: Velvet Red
- Special Colour: Hyper Green
- Exclusive Colour: Phoenix Orange

Interior, Comfort, and Cargo Space

You can adjust the front seat heights with manual lumbar support which provides a comfortness for your long drive and also there is a very comfortable seating position for the passengers. As we mainly talk about the interior of the car, there is two spoke leather multifunction steering wheel and [LED ambient lighting](#) that provides a positive vibe for the passengers. You will get a very comfortable interior with a front set and plenty of legroom and headroom for both front and rear passengers. Even while you are driving at a high speed at high there you will get well-insulated and quite comfortable.

Range, Battery Capacity, and Charging

Enyaq iV 60 is one of the average price-range electric cars but has a **good range** of 246 miles on a single charge coming up to a **battery capacity** of 58 kWh (net). Before knowing about the facilities of the charging system, mostly we feared what happens if the battery is down during traveling. But the Enyaq iV solves such a problem. There you can charge your car both on the road or at home.

For home, the company recommends installing a home charging solution allowing you to fully charge your vehicle from the convenience of your home in as little as 9 hrs 30 minutes. And you can set your car on the road offering 50kW rapid charging as standard that can charge **up to 80%** in less than 55 minutes. And using **DC fast**

charging you can set it within **35 minutes** which is of significantly less time compared to staying in a petrol or diesel pump queue.

Battery Capacity & Power

Nominal Capacity	62.0 kWh
Battery Type	Lithium-ion
